PERSONAL PROFILE

A certified QA Engineer (ISTQB-CTFL) with extensive experience in testing e-commerce solutions across multinational clients, providing a global perspective on quality assurance. Proficient in testing software and hardware across various products, demonstrating adaptability and versatility. Specializes in mobile testing and web testing, adept at ensuring the quality and reliability of software applications across different platforms. Committed to delivering superior quality products by leveraging a comprehensive skill set and a meticulous approach to testing.

CAREER SUMMARY

QA CONSULTANT

IONA (CODERSFORHIRE INC.) | MAR 2023 - PRESENT

- Conducted comprehensive testing procedures for e-commerce projects across clients in Finland, UK, and US.
- Provided QA design and functionality testing for Novita Oy's renewed online store, Novita.com, which was awarded as the winner in three categories and received three honorable mentions in Finland's largest digital media competition, Grand One.
- Identified and reported issues impacting system functionality and performance, ensuring prompt resolution.
- Provided adept support to developers in diagnosing and resolving issues in websites, mobile applications, and software.
- Contributed to enhancing quality assurance processes through proactive involvement in process improvement initiatives.
- Applied automation tools to enhance testing processes and efficiency.
- Collaborated effectively with supervisors to refine duties and responsibilities for optimal performance.

SOFTWARE TEST ENGINEER II

FPT SOFTWARE | APR 2022 - MAR 2023

- Conducted comprehensive testing for DirecTV Stream at AT&T, specializing in maintenance testing, regression testing, Google Smoke Testing, and Youtube Smoke Testing to ensure optimal product performance and reliability.
- Utilized New Relic Query Language for application monitoring, ensuring the smooth functioning of DirecTV Stream.
- Analyzed and verified change logs for Alpha and Nightly builds, leveraging shell scripting to retrieve and compare log results efficiently.
- Reviewed and groomed existing test plans, ensuring alignment with project objectives and quality standards.
- Updated progress of subtasks in Kanban board, facilitating transparency and collaboration within the team.
- Actively participated in Scrum activities, contributing to sprint planning, stand-up meetings, and retrospective sessions.
- Performed bug reporting, confirmation testing, and retesting, ensuring timely resolution of issues and maintaining product quality.
- Delivered end-of-day status updates, providing stakeholders with clear visibility into project progress and milestones.

SOFTWARE TEST ENGINEER I

KYOCERA DOCUMENT SOLUTIONS DEVELOPMENT PHILS. INC. | AUG 2019 - APR 2022

- Conducted comprehensive testing of multi-functional printers, focusing on printer driver and web application testing on Windows platforms.
- Analyzed test requirements, developed test cases, and executed functional, UI, localization, and acceptance tests in printer drivers and multi-functional printers.
- Facilitated formal and informal reviews on test plans, specifications, test summary reports, and test completion reports.
- Documented and reported software defects using bug tracking systems, collaborating closely with development teams to resolve issues during system evaluation.
- Prepared and executed compatibility testing on Windows, including setting up client PCs and domain controllers for Windows Hardware Quality Labs (WHQL).
- Executed WHQL testing for printer drivers in 32-bit, 64-bit, and server environments, ensuring compliance and submitting tested drivers to Microsoft for verification of Windows-signed packages.
- Upgraded firmware of multi-functional printers and conducted comprehensive printing tests, FAX driver tests, and all FAX-related functions and behaviors.
- Contributed to automation testing for printer driver applications using Ranorex, enhancing efficiency and accuracy in testing processes.
- Supported continuous improvement initiatives in test processes, driving productivity and product quality enhancements.
- Actively engaged in learning and providing domain expertise and guidance to team members.

AUTOMATED OPTICAL INSPECTION ENGINEER

MURAMOTO AUDIO-VISUAL PHILS., INC. | MAY 2018 - JULY 2019

- Created and updated Automated Optical Inspection (AOI) programs for AOI machines, optimizing optical inspection processes for printed circuit boards.
- Developed and maintained programs for CKD SPI machines, ensuring accurate optical inspection in the production line.
- Responded promptly to and troubleshooted AOI and CKD SPI issues, ensuring minimal disruption to production schedules.
- Supervised AOI and CKD SPI operators, overseeing their activities to ensure machines operate at optimal capacity.
- Monitored and reported weekly, daily, and monthly pass rates of AOI and CKD SPI inspections, providing critical insights for process improvement.

CERTIFICATION

- ISTQB Certified Tester Foundation Level
Issue date: January 10, 2025
Certificate ID: 25-CTFL 4-256464-12
- W3Cx WAI0.1x: Introduction to Web Accessibility | edX
Issue date: March 13, 2025
Certificate ID: 785978cdd0964e5f90588fde462c24eb

TECHNICAL SKILLS

- Software development methodologies: Waterfall, Agile, Scrum, Kanban
- Test management tools: Testpad, TestRail
- Documentation & collaboration: Confluence
- Bug tracking tools: JIRA
- Accessibility testing
- Cross-browser & Mobile testing: LambdaTest
- Automation tool: Cypress
- API testing: Postman, Swagger, Requestly
- Cloud & Infrastructure: AWS
- CMS & content testing: Sanity, Contentful
- E-commerce testing: Commercetools, Shopify
- Personalization & Recommendation testing: Relewise
- PIM testing: Akeneo PIM, Bluestone PIM
- Email & CRM testing: Hubspot
- Web optimization & debugging: SEO, OpenGraph
- UI/UX Design testing: PixelPerfect
- Scripting & Querying: Shell scripting using Git Bash & Android studio command line, New Relic Query Language (NRQL)
- Virtualization tools: VMware, Oracle VM VirtualBox
- Version control & repository management: TortoiseSVN
- Remote access & SSH tools: MobaXterm, Tera Term (SSH client)
- UI Automation tool: UIAutomatorViewer

ACADEMIC HISTORY

Cebu Institute of Technology - University

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING

- Started in June 2013
- Completed in March 2018

PERSONAL SKILLS

- Diverse and multi-cultural open-minded, as I have experiences working with multi-national clients (Japanese, Vietnamese, and, Finnish respectively)
- Excellent verbal and written communication with the English language
